Many See General Motors Films

Crows Nest Pass Motors Sponsored Good Demonstration of Car Manufacturing and Other Features

The Community hall was well filled on Thursday evening, and in the afternoon 350 school children attended, to see the films depicting the varied operations of car manufacturing at the plant of General Motors. Mr. George Neis of Calgary was in charge and was introduced by Mr. L. L. Morgan, of Crows Nest Motors.

Sound synchronized with the pictures made them doubly interesting, and one was taken on an imaginary tour of the plant, from the arrival of the C. P. R. steamer Empress of Britain, the visitor being met at the ship's side by a friend.

The program presented was highly interesting and educational, featuring the manufacture and assembling of that corporation's products—Chevrolet, Oldsmobile, etc. The sturdy construction and quality of the Chevrolet was amply demonstrated, from the steel turret tops to the knee-action wheels. Huge stamping machines were seen in action as they transformed sheets of metal into shaped fenders, cowl, and other parts.

A second reel displayed the attractive features of the Master and Standard Chevrolets in the finished product, while a third reel demonstrated the sturdy qualities of the Chevrolet truck as it made its record climb to the top of Pike's Peak in second gear carrying a load of 3,000 lbs. Another film took the spectator behind the scenes in the radio hockey broadcasts of General Motors Corporations, and gave much interesting technical information.

A humorous animated cartoon and a musical reel were also features of the showing.

Mrs. George A. Brown was a Lethbridge visitor during the week.

THREE LIVE GHOSTS

Boat Race On April 4

The Oxford and Cambridge boat race, so well remembered by all who have lived in England and which is a big event in the sport world for young and old alike, will be held on April 4. The distance is 4½ miles, from Putney to Mortlake, and the first recorded race between the university crews was in 1839. At one time, from 1839 to 1845 it was rowed on the Thames from Westminster Bridge to Putney, but since the latter year it has been rowed over the present course.

Local News

Born: To Mr. and Mrs. Wm. Wilson, Feb. 26, a son.

A dog was run over on Main street Saturday night just as the people were leaving the theatre. The car driver never stopped. The animal's back was broken, and it died shortly after.

Primo Lant of Blairmore Road suffered a painful injury to his hand in the course of his employment at McGillivray mine on Friday when the flesh was badly mutilated. No bones were broken.

A team of bowlers from the Bowladrome went to Cranbrook on Saturday, including A. Dow, P. Rinaldi, Joe Sapeta, Mike Latorum and Pete Lubardo. They had a very enjoyable visit there and good sport against the pick of the Cranbrook bowlers.

Malcolm Morrison, formerly of Coleman, now in business in Wetaskiwin, was a business visitor here over the week-end, and was accompanied by Frank Abufacy, general merchant, of that town, who was looking over business conditions here.

Neil Nicholson, of North Fork has been appointed census commissioner for Macleod constituency. The census for the entire Dominion will be taken as of date of June 1, 1936. There are 17 commissioners for the entire province, appointed by the Federal government.

Fortune smiled on Mr. and Mrs. David Gillespie on their 38th wedding anniversary, Wednesday March 11, when Mrs. Gillespie was the lucky winner of a turkey raffled by the Red Cross at Frank. The same evening Mrs. Gillespie was the winner of a set of table hankies and table cloth raffled by the Pythian Sisters.

Crows Nest Lake and Mountain, Altitude 9,200 Ft.

The fine plant of East Kootenay Power Co. is shown, which was built in 1926-27, and is hooked up with the Calgary Power Co. It has been called on frequently during the severe winter to boost the power supply for the cities. The superintendent is H. C. Craig. The drive around the lake on a gravelled highway is very popular, and attracts many visitors from southern Alberta.

OTHERS' OPINIONS

(From the House of Commons Hansard)

Mr. Bradette, M.P. for Temiskaming: As the question has been put to me, I may say that the party to which hon. gentlemen in that part of the house belong, as I understand the situation, made a definite promise of at least 25 per cent to every man and woman in the province of Alberta.

Some hon. members: No.
 Mr. Bradette: Will the hon. gentleman who interrupted deny that?
 Mr. Hansell, M.P. for Macleod: The hon. gentleman is thinking of some other group.

Mr. Bradette: There are two groups of Social Crediters? Then what group is that over there?
 Mr. Hansell: I will attempt to answer the question if the hon. gentleman will please tell me what he thinks twenty-five dollars means.

The W.M.S. of St. Paul's United Church, Coleman will hold a
TEA
 and a
Home Cooking Sale
 in the Clubroom on
SAT., MARCH 21st
 from 3 to 6 p.m.

Mr. Bradette: I know what it means because I have none too many of them, and I have never promised to distribute any myself.

Mr. Hansell: I think the hon. gentleman is evading the question. If the hon. gentleman thinks any man in Alberta ever promised to hand out twenty-five dollars in new, crisp greenback once a month, he is wrong, but if he does not understand the matter correctly I am sure that if he comes over to this side of the house some time or another we shall be able to instruct him more fully.

Usually you will find the real shopping opportunities advertised in The Journal.

Caution re Tampering with Fire Hydrants

It has been brought to the attention of the Company that unauthorized persons have been tampering with fire hydrants, which is liable to render them ineffective in case of fire. It is too beautiful to live." On May 8, pointed out that the use of hyd-1902, Mount Pelee, the great volcano is prohibited by anyone except the proper authorized persons, and any infringement will be dealt with and action taken against any person found tampering with the equipment.

—Coleman Light & Water Co. Ltd.

Romilly Boy Singers Here Tuesday, Mar. 31

Playing Return Engagement After Successful Appearance at Coast.

Keen delight was experienced in Coleman this week when it became known that another opportunity will be afforded music lovers of this district to hear the Romilly Boy Singers, Tuesday, March 31, in the Community hall, commencing at 8 p. m.

This talented group of young vocalists completely captivated the audience at their first appearance here some weeks ago, and will receive a warm welcome in their second concert. After leaving here the boys proceeded to the coast, and judging from the enthusiastic press reports from the terminal city their concerts there have been successful to a marked degree.

Luscar fans now know how Coleman felt after having a goal lead with only a few minutes to play till the final whistle when they too experienced the sinking sensation of eminent defeat with tying and winning goals being scored against them at the last possible moment.

Travelers have called Martinique "the Tahiti of the West Indies." One of the sights of the island is the jungle-covered ruins of St. Pierre, "the city that was too beautiful to live." On May 8, pointed out that the use of hyd-1902, Mount Pelee, the great volcano is prohibited by anyone except the proper authorized persons, and any infringement will be dealt with and action taken against any person found tampering with the equipment.

Cultivate a personal interest in the store ads—for that will be merely an important way of safeguarding your purse from the little leaks that occur through unwise buying.

What About State Medicine?

State medicine as a solution of the "cost of health" problem is a subject very much in the air in the Western Canadian provinces just now and judging from cumulative public demands it is only a question of time and probably a very short time before state medicine or public health insurance, in whole or in part, will be in effect generally in the west.

It is perhaps not surprising that the public mind is rapidly crystallizing in this direction. A number of factors are responsible for this. One of them is the much publicized depression of the past few years. During this period local governments have found it necessary to provide medical and hospital care for a large number of relief recipients and, of course, the cost has had to be passed on to the taxpayers.

In addition to that, very many of these taxpayers having during the past few years found it increasingly difficult to keep pace with growing tax bills and at the same time stand the expense of hospital and medical bills for themselves and other members of their families, they have found that medical and hospitalization expenses have not declined in proportion to their own incomes.

Further than that all classes of the community are demanding a high standard of medical and hospital service. The hospitals that are best equipped to cater to this demand find that they cannot continue to operate at much less than pre-depression costs because of the difficulty of collecting accounts and the doctors declare that they cannot afford to reduce their fees to a scale commensurate to the pocketbooks of their clients because they, too, find the percentage of accounts they can collect from paying patients diminishing.

With this situation staring them in the face people generally are turning in the direction of state medicine as a way around these difficulties and the move is receiving support from at least some of the members of the medical profession.

The question, however, is a big one and bristles with many features which deserve full consideration before the plunge is made. While state medicine undoubtedly offers advantages there are some phases which should be dissected with care.

Not the least of these is the question of cost and how it is to be distributed. It is not enough to provide the means and from what sources. It would also be the part of wisdom to ascertain with reasonable certainty that the advantages which the most enthusiastic advocates of state medicine claim for it can be realized in full degree before a complete scheme is made operative and whether the benefits are likely to be commensurate with the cost.

British Columbia and Alberta governments are both discussing health insurance schemes of more or less provincial scope and considerable pressure is being brought on the Saskatchewan government to adopt a scheme with prospects that before the legislature now in session adjourns, some consideration will be given to public demands.

The British Columbia plan makes provision for partial medical, hospital and dental services for certain specified classes of the community. Yet the total outlay is estimated at \$7,287,500 a year or \$12.50 per person. The amount to be contributed by the government is limited, which may result in curtailment of the benefits and hospital service is limited to 21 days.

The Alberta Health Insurance Act, passed by the former legislature, but not yet brought into operation by proclamation, is based on the local option principle. In other words it can be brought into effect in any district by the majority of the electors so decree by vote.

The Alberta measure provides for full medical, dental, hospital and nursing services without some of the limitations prescribed in the B.C. plan, but the total estimated expenditure is \$14.50 per person per annum, of which the district would contribute by local taxation \$11.28 and the province \$3.22.

Varying estimates have been made of the cost of a full scheme for Saskatchewan, ranging from \$8,300,000 to \$16,786,000 for a service exclusively for farmers and members of their families, the latter figure being quoted by the rural municipal organizations, provided a similar plan to that proposed in Alberta were adopted.

Even on the basis of the latter total expenditure, the average annual cost per municipality, it was found, would be \$22.47, involving a municipal tax levy for that purpose alone, above or below ten mills depending upon assessment and population.

With these figures in mind and remembering the depleted state of provincial and municipal treasuries and the difficulty of collecting taxes under conditions which have existed in recent years it would appear reasonable to suppose that no complete scheme could be financially successful without some assistance from the Federal government or unless some source of revenue than the land within the province adopting such measure can be found.

Taking all circumstances into consideration it might be wise, if the adventure is to be made, to try it out on an experimental basis, either by applying a complete scheme to a group of municipalities or district with the provincial government guaranteeing a deficit or by applying a partial service to an entire province. A test on some such basis would yield practical information as to when and how far further extensions could safely be made.

Increases Brain Pressure

Television In Germany

Doctors Claim Noise Adds As Much As 400 Per Cent.

Noise increases the pressure on the brain, sometimes as much as 400 per cent., and causes loss of temper, irritability and undue excitation, a symposium on "The effect of Noise in Health and Disease" at the New York Academy of Medicine revealed. Experiments at Bellevue hospital which measured brain pressure were described by Dr. Foster Kennedy, professor of neurology at Cornell University Medical College, who found that exploding an inflated paper bag increased the brain pressure to four times normal.

Dr. E. P. Fowler warned that some of New York City's very loud noises endangered the ear drum membranes.

To fight the Dutch elm disease that menace's America's elm trees, 3,000 men are at work on a program costing \$2,500,000.

ADVICE TO WOMEN

ALL women at some period of their lives need a strengthening tonic. Dr. Pierce's Favorite Prescription has helped millions of women who suffer from menstrual pains, the expectant mother who has nausea and dizziness, or the middle-aged woman who experiences "heat flashes." Read what Mrs. D. Jones wrote of it: "I am 42 years old, live in London, Ont., said: 'Dr. Pierce's Favorite Prescription has helped me keep my mind and health. I used it before each of my children and it helped me to alleviate many discomforts. I also used it during 'change of life' and it helped me equally as much.' Buy now at drug stores."

Buildings in Japan are limited to a height of 100 feet, or eight floors, above street level.

Not Just A News Paper

"If a member of your family died, would you send out the obituary in a circular letter?"

A South Dakota editor asks that question of his readers. The rest of his front-page box reads like this: "If your wife entertained would you run a slide on the screen of the movie show? If you were to enlarge your store, would you tell folks in a hotel register? If you were to have a wedding at your house, would you tack the news on a telephone pole?"

"Then why don't you put your advertising in the newspaper, too?"

Buildings in Japan are limited to a height of 100 feet, or eight floors, above street level.

Charcoal was the fuel used prior to coal in forges.

Would Scrap Auto Horns

Not Needed With Good Brakes
Opinion Of Careful Driver
I have been closely connected with the building of automobiles and everything that goes with them for more than 30 years. I have driven over all the United States and Canada and never had an accident. Never had a traffic violation ticket of any kind. Modestly, I believe that I am competent and qualified to ask questions.

Why not scrap the horn and remove it from all cars except police, fire trucks and ambulances? The horn has proved to be a menace and everyone would be better off without it.

The brake takes the place of the horn on my car at all times. For any argument in favor of the horn, my answer is: Press on the brake first.—Letter in Detroit Free Press.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Ready to Go

The liver should pour out two pounds of fluid into your liver daily. If this bile does not flow freely, your food does not digest. It just stays in the bowels. Gas builds up your stomach. You get constipated. Headache, nausea go into the body, and you feel sour, rank and the world looks grim.

A more bowel movement down 'always get' at once. You need something that works on the liver as well. It takes three good, old bottles of Little Liver Pills to get these two pounds of bile flowing freely and make you feel 'up and up'. Heretofore and hence, they make the bile flow freely. They do the work that the liver should do, but it doesn't do it. Ask for Carter's Little Liver Pills by name! Satisfactory return anything else, etc.

Stamp Must Be Requested

If Property Tagged Return Poultry Rates Not Outable

With regard to the export of live poultry from Canada to the United States, there is no duty charged on properly marked return crates, but a duty of 30 cents per crate is charged Canadian shippers on the return of their crates into Canada, unless, prior to shipping the poultry to the United States, the Canadian shipper has the crates properly tagged by a Canadian Customs official as being of Canadian manufacture. A Customs stamp is placed by the Customs officer on wooden crates, and a metal seal is attached to metal crates. In order to have this stamp placed on the coops, it must be requested by the Canadian shipper.

MAKE YOUR OPPORTUNITY

With more employment about, more trade, and more money to spend, now's the time to make the most of opportunities for as Shakespeare wrote, "There is a tide in the affairs of men, which taken at the flood, leads on to fortune." Obviously this is a time to make the opportunity, not wait for it, and if some have the desire, and lack the urge to do so, then their stock of nerve force is disastrously low, and should immediately be raised to the necessary working power level with Phosforine.

As always, the race is to the strong, and the emerging vitality of Phosforine ensures that one easily holds one's own in competition with others. The origin of most failures, disabilities, and inferiorities, is deficiency of nerve force, which a short course of Phosforine soon replaces with the stamina to make your opportunity!

Old House May Be Sold

Late King George Visited It In Halifax 40 Years Ago

Ware House, at Cole Harbor, a few miles from Halifax, which the late King George visited as a Midshipman 40 years ago and which once rung with royal voices, will be advertised for sale and removal unless someone will undertake the expense of restoring the property, the Halifax county council has decided. Years ago the Ware family sold the house and went to the Canadian west. The property was purchased by the County of Halifax and used as a residence for the caretaker of the County's Poor Home, nearby. When the house was burned down, it was abandoned.

Had To Trade Property

Owners Arranged Matter When House Put On Wrong Lot

Milton Brenner, councilman of Pasadena, Calif., went to see a lot he had just purchased and rubbed his eyes.

On the lot was a house and Brenner was certain that two days before there had been no house there.

Investigation revealed a house mover had delivered the home to the wrong address.

It should have been placed on a lot next door, so Mr. Brenner and the home owner just traded their property.

More than 42 per cent. of the sales of farm products are made during September, October, and November.

Empire's Best Salesman

King's Visit To Industries Fair Is Helping Business

Edward VIII. as King promises to be an even greater salesman for the products of the British Empire than he was as Prince of Wales.

This was strikingly borne out by the first comprehensive reports of the result of his visit to the British Industries Fair.

A New York tobaccoist bought up all the samples of apple-shaped briar pipes the King admired at the Malta stand without even asking what the pipes would cost. He is planning to make a special window display of them in New York.

Malta has sold all its briar pipes, in fact, largely as a result of the King's visit. A thousand gross has been ordered and the Mediterranean both benefited from the royal visit. The King had said he would like to see ostrich feathers come back, but wondered whether he could influence women's fashions.

Also, substantial orders were placed for Malta's homegrown fulgurine enamel by the King that he had received some napkins made of the homespun from Lady Louis Mountbatten.

Ostrich feathers and seal skin slippers, a pair of which the King accepted from a tremendous repurchase, said W. E. Henriette, of the South African trade commission's office. "It has brought in inquiries, mostly from milliners for decorative purposes, to an extent that we had never looked for."

"The industry has been moribund for years and years and the King definitely revived it." The good impression the King created while he was visiting in Hungary last year has also favorably affected British business. Two Hungarians at the fair declared they had spent 15,000 on orders directly because the King had bought things at Budapest.

SELECTED RECIPES

ROLLED NUT WAFERS

1/2 cup "Crown Brand" Corn Syrup
1/2 cup butter
1 cup bread flour
1/2 cup sugar
1 cup chopped walnuts, or peanuts

Heat the "Crown Brand" Corn Syrup to the boiling point, remove from heat and add butter. Then, slowly and stirred all the time, add the flour which has been mixed and sifted with the sugar. Now add the chopped nuts. Drop small portions from the tip of a spoon on a greased cookie sheet, 2 inches apart. Bake in a slow oven. These cookies can be rolled or just left plain.

The Explanation

A Scottish minister had three bottles of champagne as a birthday gift, and handed them to his housekeeper for safe keeping. A short time afterwards he was entertaining friends, and asked the housekeeper to bring up a bottle of champagne. "Champagne, sir?" she queried. "Yes," he replied. "Don't you remember the three bottles I gave you weeks ago?" "Was you champagne?" Mercy me, sir, I thought it was sma' beer, and had it w' my parritch, and I aye wondered hoo I was aye see cheery in the mornin'."

To Encourage Women Writers

Prizes Offered For Best Non-Fiction Article By Canadian

To encourage younger newspaperwomen and stimulate interest in more inspiring journalism from women writers, the executive of the Canadian Women's Press Club announced its memorial award of \$25 and a silver medal will be given this year for the finest piece of writing by a Canadian woman appearing in non-fiction.

Entries may be special articles or essays, dramatic, literary, musical or artistic criticism, editorials in magazines, newspapers or other periodicals, reportorial assignments or interviews.

This award is believed to be the first prize offered in Canada for competition among women writers for newspaper and non-fiction articles. The contest is open to any woman writer actually resident in Canada within 12 months preceding publication of the entry, whether published in Canada or elsewhere; material will not be eligible which has been recognized by other awards.

All entries must be submitted not later than June 30, 1936, the award on orders directly because the King had bought things at Budapest.

The Memorial Award is named in honor of members of the Canadian Women's Press Club who have written their last assignment.

Plenty Of Clocks

Liner Queen Mary Will Have Nearly 600 Installed

When the Queen Mary comes into service, she will have nearly 600 clocks, the largest marine clock installation in the world. The whole system will be controlled from the chart-house. It will consist of 39 specially-designed clocks for public rooms, 31 specially-designed clocks for the officers' mess, 54 specially-designed clocks for special rooms, 370 clocks for first-class cabins, and 102 clocks for galleys, promenade decks, crews' and officers' quarters.

Would Help A Lot

If the entire population could be induced to eat just one more slice of bread daily, the decline in bread consumption would be more than arrested. If Jesse Smith, president of the Millers' National Association, is correct in his estimate of results following such increase in Canada would mean an additional consumption of 742,341 barrels of flour, or 70,000,000 loaves of bread.

Give a man rope enough and he may be able to get his car going.

Haggis From France

Scotsmen In Canada Feel National Dish Is Insulted

Ottawa.—Scotsmen in Canada are in a bad way. They can get no haggis from Scotland, but to add insult to injury they have been told they may get them from France.

William Fraser, Liberal member for Northumberland, brought the matter to the attention of the high court of parliament and asked Hon. James Gardiner, minister of agriculture, what steps the government proposed to take to restore to Scotsmen their ancient rights. He got no immediate answer.

The member based his question on a letter he had received from a prominent citizen who said: "As a Scotsman born in Dumfriesshire of sheep-stalking ancestors I am passionately fond of the national dish of Scotland, namely the haggis."

The writer went on to say he had been accustomed to import haggis for many years but recently was informed a permit from the department of agriculture was required. After much correspondence he found the permit would be issued by an official in Edinburgh and after many difficulties got the permit. He ordered his haggis but the shipment was stopped at Montreal.

Move Toward Set Calendar

Reform Urged Before British House Of Lords Recently

A movement recently established by the League of Nations of a fixed international calendar is under way in Great Britain.

Calendar reform was urged before the House of Lords by Lord Mervyn, who advocated adoption of a 13-month calendar now used by some governmental departments, unions and industrial organizations.

Lord Denbrough, on the other hand, urged a 12-month calendar with equal quarter and half-years.

Riel Rebellion Veteran

Man Who Saw Boom Days In West Dies At Halifax

Frederick Leslie Ray, native of Quebec City who went to Canada's west in the day of its boom and became a prominent rancher, died at Halifax recently in the home for aged men at the age of 82. He was a veteran of the Riel rebellion and his entire property was destroyed in one of its encounters. At the end of the rebellion he returned to Halifax, where his father had brought him in 1873, and remained there the rest of his life.

Glass wool can now be made so fine that 100 fibres of the glass make a thread no thicker than ordinary No. 50 cotton.

BAKING BRAN MUFFINS IS SO MUCH EASIER WITH QUAKER Natural BRAN . . . IT'S BETTER TOO—PERSONALLY I'VE NEVER HAD SUCH WONDERFUL RESULTS BEFORE, AND, OF COURSE, QUAKER'S MUCH LESS EXPENSIVE!

EASIER... BETTER...
More Economical

I'VE NEVER TASTED SUCH GOOD MUFFINS, YOU'RE A WONDERFUL COOK, MARG!

Especially intended for baking purposes, Quaker Natural Bran mixes well and rises lightly, giving better results from your favourite bran recipes. It's economical, too. That's another reason why hundreds of Canadian housewives bake with it regularly. There's a valuable coupon and a book of delicious bran recipes in every package. Order your supply from your grocer today! Look for the Quaker Natural Bran display at the end of the aisle. He has all the things you need for the delicious recipes included in the recipe folder in each package.

QUAKER Natural BRAN

First Step Taken Toward Amending Bank of Canada Act

Ottawa.—Government ownership and control of the Bank of Canada will be obtained by the issue of additional shares which will be taken up by the federal treasury, and by the appointment of additional directors sufficient to assure control of the board.

This was definitely indicated in a notice of motion appearing on the House of Commons order paper in the name of Finance Minister Dunning.

Carrying out the forecast contained in the speech from the throne and in conformity with the Liberal party's campaign platform, the government has taken the first step toward amending the Bank of Canada Act to empower the transfer of control and ownership from private to public hands.

The resolution reads as follows: "That it is expedient to bring in a measure to amend the Bank of Canada Act so as to increase the capital stock of the bank, to provide that certain shares thereof shall be purchased by the minister of finance out of the consolidated revenue fund in order to assure ownership of a majority of the shares by the government, to increase the number of directors and to provide for election and appointment of directors in such manner as to assure voting control of the board by directors appointed by the government."

Details of the government's intentions must be disclosed until the time comes for moving the resolution, but it is understood there is no intention of interfering with the present board of seven directors, nor with the executive officers.

It is not anticipated the resolution will be moved for some time as the government has already indicated the next important measure to be advanced would be that dealing with a national commission on unemployment and relief, to be moved immediately the present lengthy debate on the Canada-United States trade agreement is ended.

Serious Floods In Ontario

Waters Drive Four Hundred Families From Their Homes

Toronto.—One dead, two near death and property damage in excess of \$300,000 were counted as the toll of the most widespread floods eastern and central Ontario have experienced in 20 years. Four hundred families watched ice-dotted waters surge around their dwellings.

Hardest hit of the scores of cities, towns and villages affected, Belleville, a city of 14,000 population, was in serious plight with five feet of water roasting down main streets, more than 300 homeless and a food shortage threatening.

To Exempt Goods

Ottawa.—The government will, it is expected, bring down legislation providing for exemption of goods purchased by Canadian tourists in the United States up to \$100, at the time the budget is introduced.

Great Britain's largest butter factory, planned for Chard, England, will have a capacity of 200 tons a week.

Will Impose Duty To Protect Fruit And Vegetable Growers

Ottawa.—Arbitrary duty valuations will be used to protect Canadian fruit and vegetable growers from unfair competition from the United States, Finance Minister Dunning assured the House of Commons when Conservatives criticized vegetable tariff reductions in the Canadian-American trade treaty.

Vegetable tariffs were discussed most of the afternoon when the treaty was considered in committee stage. Conservative Leader Bennett chided the Liberals on their use of dumping duties and claimed the finance minister's announcement was a vindication of actions taken by his administration.

On many vegetables, the treaty reduced the Canadian tariff from 30 to 15 per cent. Conservative members, most of them from Ontario protested "against" the reduction,

Expense Accounts Paid

Cost Of "On-To-Ottawa" Trek Amounted To \$32,104

Ottawa.—The Dominion government paid \$31,108 to Saskatchewan and \$996 to Alberta, a total of \$32,104, in connection with the "On-To-Ottawa trek" last summer. This was shown by orders-in-council tabled in the House of Commons by Hon. Norman McLeod, minister of labor.

The payment to Alberta covered cost of meals furnished the trekkers during stops at Calgary and Medicine Hat. The Saskatchewan payment covered expenditures for "sustenance, tobacco and transportation" during the period from June 12 to Sept. 11, 1935.

In a report to cabinet, the minister said: "That a statement of expenditure has been received from the province of Saskatchewan covering expenditures amounting to \$31,108, made during the period of June 12, 1935, to Sept. 11, 1935, for sustenance, tobacco and transportation on behalf of a group of single, homeless, unemployed men who camped in the cities of Swift Current, Moose Jaw and Regina in the said province, proceeding to Ottawa from British Columbia as an 'On-To-Ottawa trek', and including the cost of transporting said men back to their homes or points of origin and necessary sustenance en route thereto."

Ottawa Renews Loans

Accepts 1937 Treasury Bills From Saskatchewan As Security

Ottawa.—Renewal for one year of loans to the province of Saskatchewan amounting to \$1,024,218 is provided for in orders-in-council passed by the government and tabled in the House of Commons.

The loans matured in January and February and were secured by treasury bills of the province. The Dominion government has not only renewed the loans but has incorporated in the renewals the matured interest totalling \$47,390. Treasury bills maturing in 1937 have been accepted as security.

More Butter Produced

Output 11.5 Per Cent. Higher Than February 1935

Ottawa.—The output of creamery butter amounted to 7,894,597 pounds, a gain of 815,715 pounds or 11.5 per cent. over February, 1935, the Dominion bureau of statistics reported. Production in western provinces with previous year's figures in brackets: Manitoba, 896,581 (753,677); Saskatchewan, 806,792 (729,494); British Columbia, 512,267 (360,822).

Expenses Of Rigg Committee

Ottawa.—Travelling expenses of the committee which investigated unemployment relief camps from December 2, 1935, to January 30, 1936, amounting to \$890, were covered by an order-in-council tabled in the House of Commons. The committee was headed by R. A. Rigg, director of employment services for the labor department.

claiming fruit and vegetable growers would be forced out of business. Revenue Minister Iltis, whose department sets duty valuations, said the treaty gave the government ample power to protect Canadian producers.

Neither the finance nor the revenue minister would announce when dumping duties would be applied or to what extent. They said the best judgment of the government would be exercised.

Two or three western Liberals protested against the height of the vegetable tariffs. They claimed it would increase prices on the prairies. Gordon Ross (Lib., Moose Jaw) urged regional tariffs with free importation for Manitoba, Saskatchewan and Alberta where fine vegetables were not grown in commercial quantities.

Western Barley Too Weedy

Must Be Cleared To Become Popular As Feed

Toronto.—Western feed barley will never achieve popularity in the east until such extraneous matter as weed seeds is removed in the cleaning process, the national barley committee was told by Prof. E. W. Crampton, professor of animal nutrition at Macdonald College, Quebec.

"As available commercially, the feed grades of western barley are penalized in feeding value and in popularity in eastern Canada because of the quantities of weed seeds and other extraneous matter of low or questionable nutritional value," he said.

"Until some marked improvement in feeding grades of barley by way of a reduction in the amounts of these adulterants is effected, it is questionable if this feed will be widely used in eastern Canada." With the available modern machinery for weed cleaning, it would not be difficult to remove the weed seeds, he asserted.

Lew Hutchinson of Duhamel, Alta., a practical farmer and member of the Alberta wheat pool, dealt with barley. What the producer most required, he maintained, was a barley that would yield early, have a good stiff straw and prove profitable to the farmer.

Referring to the problem of weeds in western barley, Mr. Hutchinson said the solution lay in better farming and in cleaning the grain on the farm. The farmer must be shown, he said, that he could make as much out of barley as he could out of wheat.

To Investigate Prices

Ottawa Will Check Up Increase On Farm Implements

Ottawa.—Arrangements were made by the agricultural committee of the House of Commons to investigate the increase in prices of farm implements put into effect this year by the Canadian manufacturers. The committee also went on record as being "of the opinion" the increases should not be put into effect until the committee had completed its probe.

When the Canadian-United States trade agreement came into effect reducing the duties on farm implements from United States from 25 to 12½ per cent, Canadian implement manufacturers increased their prices in their 1936 price lists. The action was debated in the Commons and the question referred to the committee.

Expect Rush Of Tourists

Ontario Health Inspector Looking Over Sanitation At Callander

Toronto.—In anticipation of the rush of tourists expected to come to see the Dionne quintuplets this summer, the department of health has sent an inspector to Callander to examine sanitation there. Hon. J. A. Faulkner announced.

The minister said that inspectors would also make other examinations in the north country where large numbers of visitors are expected.

Decision Favors Indians

New York.—By a customs court decision, Mrs. P. L. Garrow, Canadian Indian from St. Regis reservation in Quebec, established the right of Indians to pass back and forth over the Canadian-United States border without payment of duty on household effects or small quantities of Indian-made merchandise.

FAMOUS ADMIRAL DIES

Earl Beatty, famous British Great War naval hero, who died in London March 10 at the age of 65.

Program Should Be Uniform

Social Legislation For All Canada

Tragedy in Nova Scotia House of Assembly. In a surprise move that left the Nova Scotia legislature in a flurry of excitement at adjournment, Hon. Gordon S. Harrington, Conservative opposition leader, proposed a program of social legislation for the Dominion to be obtained through amendment of the British North America Act.

Col. Harrington, who recently resigned the chairmanship of Canada's employment and social insurance commission, declared that instead of tussling with a general procedure for amending the Canadian constitution the province should agree to a specific amendment through Westminster if one is required to permit the Dominion government to engage in and at once set up the machinery necessary for such a full social program.

Suggesting maternity benefits, unemployment insurance, health insurance, accident insurance, widows' pensions, old age pensions and invalidity pensions, he said the Dominion government should adopt a complete program and have it uniform throughout Canada.

Divided On Rhine Move

Report Says Some Members Of Reich Are Opposed

Berlin.—Usually well-informed source indicated that certain members of the German government had opposed immediate remilitarization of the Rhineland.

Dr. Hjalmar Schacht, minister of economics, Baron Von Neurath, foreign minister, and Gen. Werner Von Blomberg, minister of war, were said to have been in this group.

According to the same source, Dr. Schacht favored negotiations with the other Locarno negotiators in an effort to alter existing guarantees and supply others to take their place. Gen. Von Blomberg was said to have contended the army was not strong enough to assume the responsibilities arising from reoccupation of the Rhineland.

A New Record

Moscow.—An endurance record was claimed by a red air force mechanic, I. Golushko, who kept his face in a gas mask for 116 hours, 45 minutes, except for three 15-minute periods daily when the mask was removed to permit him to eat.

Shipment Of Nickel Billed To Germany Held At Halifax

France Looks To Allies

Sizes Up Strength Of Army At Her Disposal

Paris.—France, dropping official hints that she might prefer a "preventive war" with Nazi Germany now to "carnage" later, hastened to cement a chain of military alliances which would place a potential army of 40,000,000 men at her disposal.

A possible allied army of that magnitude was disclosed in new, if unofficial, figures to be based on an alliance of France, Soviet Russia, the Little Entente and Poland, and to embrace:

- 1 For 48-hour mobilization: 8,000,000 men.
 - 2 Additional trained reserves: 31,000,000 men.
 - 3 Eight thousand aeroplanes.
 - 4 A million tons of warships.
- The first category of the "paper army" troops which could be mobilized within 48 hours, was reckoned approximately thus: France, 1,000,000 men; Russia, 3,000,000; Poland, 1,000,000; Roumania, Yugoslavia and Czechoslovakia, 800,000 or more each.

In the second category were placed these trained reserves: France, 7,000,000; Russia, 17,000,000; Poland, 2,000,000; Roumania, 1,000,000; Yugoslavia, 1,700,000; Czechoslovakia, 1,000,000.

As for aeroplanes, France was listed as able to furnish 2,400; Russia, 3,000; Yugoslavia, 800; Poland, 700; Czechoslovakia, 600, and Roumania, 500.

More Deaths Among Veterans

Government Approves \$60,000 Grant To Last Post Fund

Ottawa.—Deaths among war veterans are rapidly increasing in number. Hon. C. G. Power, minister of pensions and national health, told the House of Commons as it approved a grant of \$60,000 to the Last Post Fund.

The minister said the fund was established in 1921 to provide burial for indigent ex-service men and the number of men buried with the fund's resources had steadily increased since then. In the fiscal year 1921-22 the number was 83 and in 1934-35 the number had risen to 608. Indications were it was still far from reaching its peak as the veterans were getting older.

Shipping Cattle To Canada

Montreal.—Approximately 1,000 head of Canadian cattle would be shipped from Montreal to the British market every week during the coming shipping season, R. J. Large, of the firm of Stephenson and Large, of Birkenhead and London, buyers of Canadian cattle, said, on return from a Dominion tour as far west as Saskatoon.

Visit From Lord Mayor

Vancouver.—The Lord Mayor of London has signified his intention of attending Vancouver's Golden Jubilee celebrations this year and Secretary of State Cordell Hull will probably represent the United States if President Roosevelt is unable to visit the city, Mayor G. G. McGeer said.

Halifax — Harbor police stood guard over a shipment of Canadian nickel consigned to Germany while customs officials informed the American freighter Liberty 516 would not be permitted to load it.

Customs officials told reporters.

John R. Mitchell, of F. K. Warren's Halifax agents for the American Hampton Roads Line, said: "All I know about the cases is that they are from Toronto and, according to the bill of lading there are 73 of them containing nickel cathodes consigned to Hamburg, Germany."

From Ottawa came word that the customs authorities had detained the shipment as a precautionary measure to prevent any violation of economic sanctions against Italy.

Reports that some recent shipments to Europe through Halifax had been wrongly described in bills of lading could not be confirmed here, but it was learned that within the last month more than 32,000 copper wire bars, 18,000 copper cathodes, about 20,000 barrels of nickel copper mats, 13,000 ingots and zinc smelter and other materials suitable for manufacturing munitions had been shipped from this port aboard liners for Germany and other European countries.

Placed On Free List

Magazines Again Permitted To Enter Canada Without Tax

Ottawa.—Over protests from Conservative members, the house passed tariff changes in the Canadian-American trade treaty which placed magazines back on the free list.

Conservative Leader Bennett led the protests, claiming Canadian magazines would lose circulation and the gates reopened to unconscious influences on character.

Finance Minister Dunning called this a bogey and insisted no national danger was controlled by a tax or embargo. Canadian magazines had been established and expanded on a free tariff, although he admitted there would be difficulties to be faced by publishers.

At the same time the finance minister said he would consider appeals to reduce duties on machinery and production supplies for Canadian publishers, but he declined to forecast the contents of the budget.

Cost Of Relief Camps

Return Tabled In House Gives \$8,084,059 For Last Year

Ottawa.—Total cost of operating relief camps for unemployed men by the department of national defence during 1935 was \$8,084,059, a return tabled in the House of Commons indicated. During the year, 75,082 men were cared for in the camps, the average length of residence being 97 days.

During the previous year 83,307 men were cared for in the camps and the total cost was \$7,462,280.

Hitler Is Determined To Keep Sovereignty Of The Rhineland

Karlsruhe, Germany.—Adolf Hitler, widely cheered by an election meeting of 60,000 persons, proclaimed that "nothing will move us to renounce" Nazi sovereignty in the Rhineland but assured France, Czechoslovakia and Poland that armed German forces will not move against them.

In a campaign speech loaded with appeals for "common sense statesmanship," he criticized sharply what he called Soviet interference with the tranquility of other nations.

The reichsfuehrer reaffirmed his overtures for a new European peace pact, characterizing his offer as the "most magnanimous ever made anywhere."

His denunciation of Russia was based on a double criticism of Soviet policy, extending even to what he declared was an "international move-

ment to prevent the nations from coming to the Olympics."

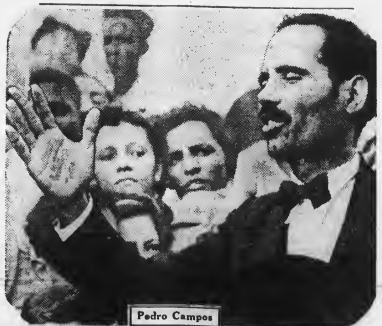

His plea for peace, historically founded on relationships between Poland and Germany, went back to his denunciation of the Locarno treaty and his offer to negotiate for new affirmations of peace in Europe.

Hitler's words were broken time after time by loud salvos of applause from his listeners. He interrupted his own words once with a fit of racking coughs after he had become hoarse in a declamation of German progress against unemployment.

He said Germany had originally subscribed to the Locarno pact "for the sake of international understanding" even though the agreement "made it necessary for 14,700,000 Germans to remain unarmed."

Approximate population of the German Rhineland to which the fuhrer was referring, is 14,700,000.

PUERTO RICO SEEKS INDEPENDENCE

Pedro Campos

Agitation of the Nationalist Party to sever connections between Puerto Rico and the United States came to a head at the funeral of one of the assassins of Colonel Riggs, Chief of the Island Police, when Pedro Campos, above, Harvard student and leader of the party was arrested after urging independence for the island possession. Here we see Campos urging the crowd to seek freedom from bondage.

THURSDAY, MARCH 19, 1936

NOTES AND COMMENTS

FINDING THAT efforts to dominate Canadian Labor unionism have failed, the Communists, through the Workers Unity League, which it is reported has withdrawn from the Third Internationale affiliation, are attempting to have the Alberta Federation of Labor sponsor a conference with a view to organizing a single miners union.

FOUR Independent locals were represented at a scales convention held in Calgary on March 2, 3 and 4, viz., Cadomin, Shaughnessy, Blairmore and Bellevue, and all pledged their support for 100 per cent. unionization. This recalls pledges of a similar nature and the word "Solidarity" when the Workers Unity League secured control of local unions and by a process of boring from within, bored themselves right out again, at least as far as Coleman mine workers were concerned.

WRECKING the solidarity of the former Mine Workers Union of Canada in the Crows Nest Pass, Murphy, Stokuluk and misguided followers find they are out in the cold. Now they ask for union labor assistance to re-establish themselves. Robert Hewitt, grand lodge representative of the Brotherhood of Railway Carmen, speaking on the efforts of Communists to join with regular unions, states:

"Sensible and very commendable, if honest and sincere, is the recently expressed trade union policy of the Communist party. It takes moral courage for such an organization to admit that for some 15 years it has been on the wrong track as far as its trade union policy is concerned, yet in these times of trial and error, the Communist party does not stand alone in the following of mistaken policies, and is at least entitled to credit for having the moral courage to admit its mistakes and to industriously set about the task of making amends."

REVIEWING THE destructive methods employed to capture the International Trade Union movement, and the failure of the Communists to marshal union members to its flag, Mr. Hewitt concludes:

"The only doubts that I have personally, is as to the likelihood of these people staying 'put.' A group that jumps about with a change of policy about every wet day, can hardly be expected to settle down and give their undivided allegiance to the trade union movement. Who knows when someone high in the counsels of the party might order them to jump in quite the opposite direction, and the test come as to whether they are more devoted to their trade union or to their political party? But I feel that we can well afford to take a chance on all matters of this kind."

INSUFFICIENT Lighting of Coleman's business area has been commented on at various times. The lack of light was forcibly brought to the writer's attention this week. A former resident came here with a gentleman to size up the business prospects in his own line. The latter, after coming through Blairmore, where there is more illumination at night than in Coleman, noted the contrast, and wondered if the town was really as prosperous as the pay-roll would indicate. He openly commented on the dimly lit streets and dark store windows. When visitors notice these things sufficiently to make remarks, it is time our storekeepers wakened up to the fact that better lighted premises at night might result in unforeseen benefits. Appearances count in creating impressions, either for good or bad, and a few lights in a store window is an inexpensive way of helping to create a good impression, especially if prospective purchasers are scouting around. You never know!

WASTE Paper baskets in newspaper offices are sometimes taxed to capacity. Free publicity requests and lots of other "tripe" come in frequent floods, which, if time was spent on reading it only, would take a few hours every day. The result is that one glance is sufficient to toss it aside without a second thought. Much time would be saved by free publicity hounds if they would use a fraction of their energy in thinking up some paid advertising. Newspapers of any value have something better to do than to spend time and money in non-fruitless work on free publicity.

EVERY DAY you must pull against the stream. Rest on your oars, and you will quickly find yourself drifting. Each day demands new effort, for life was planned that way. Cease effort or work, and mind and body become flabby. Especially is this true of men in business for themselves. Business does not come to he who waits, but it is sought after and captured by the man who shows enterprise and initiative. Full time employment of one's creative faculties will leave no time for moping over what has happened, but will bring joy in achievement. There is always room at the top for the man of ideas; just as good opportunities to progress as ever there were.

IT won't be long before the chief occupation of some folks will be "going round and round"—the golf links.

Sketches Of Coleman Citizens

The postmaster is a person every-
one knows in a small community.
He is the custodian of His Majesty's
Mails and therefore a person of
some importance. He might be a
martinet and not depart one iota
from the rules and regulations, or
he might be a very accommodating
and courteous official and not be
such a stickler for red tape and
bureaucracy.

Frank H. Graham comes under
the latter category. Many a service
and accommodation has been ex-
tended to tardy callers, and many a
letter has been despatched which
under regulations would have to
wait 24 hours.

His first experience in post office
work was from 1914 to 1916 in
Coleman, assisting in the local
office. Then came a turn of service
as railway mail clerk, in the years
1916-17 and part of 1918. 1920
and 1921 he was at Penticton, un-
der Coleman's first postmaster, Mr.
McIntyre, who is still at the latter
place.

From 1923 on Mr. Graham has
been in Coleman post office, and it
is a well-known fact that this office
always receives good reports on its
service and efficiency, and the public
appreciate the courteous service
which has always been a character-
istic of the office.

Frank's hobby is gardening, and
in this he is assisted by his wife.
Several years ago he had a house
built overlooking the town, on a
rocky pile which required good
hard work to transform into a
pretty garden spot. And to keep
the home lively, he has two boys
and a girl.

The Churches

ST. ALBAN'S CHURCH NOTES
Next Sunday, the 4th in Lent,
the services will be: 12:30 p.m.
Sunday school, 7 p.m. Evensong
and sermon.

On Friday at 10 a.m. Holy Com-
munion, Lantern service and bible
study at 7:30 p.m.

THE SALVATION ARMY
Capt. Richardson, Lieut. Thompson
and Cadet Boyd, of Cranbrook
took the Salvation Army services
here on Sunday. The hall was
packed, quite a number of young
men attending.

Next Sunday
The Joyful Melody Makers of
Fernie, a group of enthusiastic Sal-
vationists, with Mrs. Dale in charge,
will be at the services here on
March 22. Directory class at
10:30 a.m., Sunday school 3 p.m.
Happy Salvation Service 7:30 p.m.
Special music and singing, and all
will be made welcome.

Local News

A carload of 1936 Terraplane cars is expected at Sentinel Motors within the next few days.

Steve Krwzy, who was injured in the mine before Christmas, is now able to be around, though still lame and unable to return to work for some time.

E. A. Brink, of Lethbridge, representing the Hudson-Terraplane cars, was here this week. A. M. Morrison is local agent for these cars.

Coleman schools have their new moving picture machine installed, with the exception of sound equipment, which will come later. Proceeds of the concert recently in aid of the fund was \$114 net.

To Councillor Joe Plante goes the credit for reporting the first robin of the season. He states it was as lively as a cricket heralding the approach of Spring, which officially commences on March 21.

Disgusted at being only a stepping stone for other senior hockey teams, outside of their own league, in quest of provincial hockey honors, Drumheller is going to strengthen their team by importing players.

The funeral of Mary Sygutek, 26 years, who died in a sanitarium at Calgary, after a lengthy illness, was held on Monday at Holy Ghost church, at which many relatives and friends of deceased were present. Burial took place in the Catholic cemetery.

The award of the Jack Gordon medal to the best all round hockey player on Coleman Canadians team has not yet been made, states Frank G. Oreggan. There is still a league game to be played, if ice will permit, between Coleman and Bellevue.

Sure signs of Spring were seen in the school yard this week as small groups of boys were seen playing marbles and two teams of softball enthusiasts taking hefty swings at a softball which was both soggy and lop sided but nevertheless served the purpose.

At a meeting of the council last week a notice of motion was given to fix the tax rate the same as last year; also a notice of motion was given regarding steps to be taken to close a portion of a lane at the rear of property owned by J. S. D. Apollonia.

At a meeting of the school trustees last week at which Inspector Bremner was present, there was discussion on nine children of school age living in the vicinity of Crows Nest Lake, who have no means of transportation to bring them to school. The matter is still under consideration.

Attention is drawn to the free illustrated lecture in St. Alban's parish hall next Wednesday at 7.30 p. m., when Major Norbury, of the extension department of Alberta University will give an address. The subjects on which he will speak will be American Art, Modern Art and Around the Galleries.

The Girls' Guild of St. Alban's church, under Mrs. George A. Brown, held a tea on St. Patrick's Day at the home of Mrs. Halliwell, to help raise funds for the purchase of stage curtains for the parish hall. St. Patrick's Day favors and flowers were used for decorations, and Mrs. Parlington and the members of the guild assisted in serving tea.

Board of Trade Asking Council To Take Action

Dissatisfaction is voiced by many householders on lack of control of stray animals in town. A protest is being lodged with the council by the Board of Trade with a view to eliminating the nuisance. Damage and annoyance throughout the winter has been the cause of many bitter complaints.

Pattinson Hardware Takes Over Import- ant Agencies

Effective this week, Pattinson Hardware takes over the dealers' agency for the Crows Nest Pass of Majestic Radios, Frigidaire Corporation and Connor Electric Washing Machines. S. W. Chahley, who formerly held the agencies, will be salesman under the new arrangement, covering the Pass towns for these products.

On Wednesday G. Pattinson, R. Pattinson and S. W. Chahley attended a dealers convention in Lethbridge in connection with the above lines.

Special Rates on Railroads

Bargain fare excursions from the prairie provinces to the Pacific Coast, good from April 5 to 11, taking in the Easter week-end, are announced to-day by J. B. Parker, secretary of the Canadian Passenger

Association, on behalf of the Canadian Pacific and Canadian National Railways. Fares for this spring trip westward will be a cent a mile in coaches, a cent and a quarter in tourist cars and a cent and a half standard from Port Arthur to British Columbia points; with return limit of 21 days in addition to the date of sale.

Similar fares are offered from British Columbia to destinations in the prairie provinces east to Port Arthur.

Stopover privileges will be granted at Banff, Jasper, Nelson or west on westbound tickets sold from Alberta to Port Arthur and at Banff and Jasper only on eastbound tickets sold in British Columbia. Eastbound fares are good from April 4 to 11 inclusive.

Tickets will be good going and returning via the same line and route in each direction and will not admit optional routes or side trips.

With Easter falling on Sunday, April 12, these excursions bring a welcome break after the long winter.

ANNOUNCEMENT

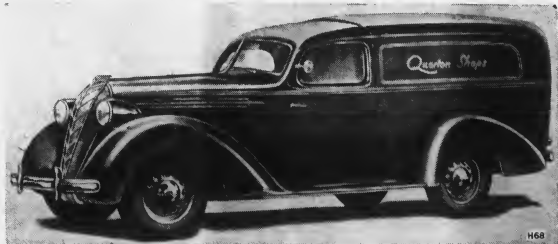

Ladies' Orange Benevolent Association Annual Sale is to be held in the I. O. O. F. Hall, Coleman, on Saturday, April 18, from 3 to 6 p.m. Keep this date open.

The Ladies' Auxiliary

of St. Paul's United church will hold their annual supper in the club room on Monday, April 6, from 5 to 7 p. m. Keep the date in mind. Admission 50c, and you will certainly enjoy a meal away from home.

WORLD HAPPENINGS
BRIEFLY TOLD

Daylight saving will be in effect in Toronto and Montreal from April 26 until Sept. 27, city councils decided.

The Franco-Canadian treaty of navigation signed at Ottawa, December, 1935, has been ratified by the senate.

European wheat production will fall below last year, it was forecast by the Institute of International Agriculture in a report showing a general drop in winter crops.

The Australian government has decided to erect a group of bronze statues in front of the parliament buildings at Canberra as a memorial to King George V.

Traffic returned to normal in London after a one day strike of 1,000 taxi, bus and street car drivers as a protest against orders shortening their lunch hour.

The Donnelly resolution to provide pensions for the blind passed in the House of Commons but Finance Minister Dunning held out no hope that pensions would be paid this year.

Total ordinary revenue of the Dominion government for the month of February was reported in the Canada Gazette at \$23,023,032 compared with \$23,292,909 in Feb., 1935, a decrease of \$269,856.

The 1936 British Mount Everest expedition, led by 51-year-old Hugh Rutledge, left Darjeeling, India, in an attempt to conquer the world's highest mountain with the blessing of Buddhist Lamas.

Fingerprints of all persons obtaining permits to carry revolvers will be taken and kept on file by provincial police, it was announced by Lieut.-Col. L. Lambert, chief of the Quebec division.

Imports Not Heavy

Canada Manufactures Ninety-Two Per Cent. Of Soap Used

The cost to Canada is more than \$9,000,000 a year to keep moderately clean and the women of the country pay two-thirds of that amount for ordinary household or laundry soap, soap flakes, chips and powdered soap, according to information received from the department of trade and commerce in Ottawa. The remainder of the amount is paid out for toilet and castle soap of which nearly two and a half pounds are used annually for every man, woman and child in the country.

Ninety-two per cent. of the soap that hides ingeniously in bath water, that slips out of the soap dish, that is rubbed behind Johnny's ears and smarts in father's eye when he shaves, is made in the Dominion, while local manufacturers contribute an even greater percentage of the huge bars that melt in the dishwasher or disappear in the washing machine.

The United States is Canada's best customer for soap while it at the same time supplies Canada with most of its soap imports. Exports to the United States last year totalled \$594,982 while imports amounted to \$344,980.

Classes in skiing are now being held at Nice, France.

For Kiddies-Cotton-and Crochet

PATTERN 5534

Lacy—silly—healthy, best describes this open mesh frock for little girls. You like to play in the sunshine. You can easily crochet this simple style in colored string, for the body's entirely of a simple stitch, with contrasting yoke of the same stitch worked more closely. Isn't the finished result irresistible?

In pattern 5534 you will find directions for making the dress shown in sizes 4, 6 and 8 (all given in one pattern); illustrations of it and of all stitches used; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

Find
Out

From Your Doctor
if the "Pain" Remedy
You Take Is Safe.

Don't Entrust Your
Own or Your Family's
Well-Being to Unknown
Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with "Aspirin."

We say this because, before the discovery of "Aspirin," most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of "Aspirin" largely changed medical practice.

Countless thousands of people who have taken "Aspirin" year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: "Aspirin" is rated among the fastest methods yet discovered for the relief of headaches and all common pains... and safe for the average person to take regularly.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trademark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

Demand and Get
"ASPIRIN"

Snappy Clothes For Navy

British Admiralty Has Announced
Some Radical Changes

Britain's navy is going all dinky. Not satisfied with attractive white shoes and new ties, in addition to the option of cocoa or chocolate instead of rum, Jolly Jack is now to be issued with a sports shirt of the most charming blue rayon.

And this is not all. Pajamas in attractive colors are to be offered in the canten at \$2.50 a pair, made of the best artificial silk. For an extra quarter, the initials of the wearer can be obtained, also in silk, to be sewn on the pocket of the pajamas.

Gone also are the official canvas kit bags and henceforth Jack will be issued with a smart imitation leather suit case.

When ashore, Jack may, if he wishes, discard his bell bottom pants for a smart new rig of navy serge, with white collar and black tie.

These innovations have just been announced from the Admiralty in a document to commanders of the fleet who are asked to co-operate in every possible way in "helping seamen to adapt themselves to new and more attractive clothing."

What Jack will have to say about these silk pajamas if he happens to be suddenly called from his bunk for extra duty on a storm night in the North Sea remains to be heard, but will hardly be publishable.

SUNDAY SCHOOL LESSON
MARCH 22

JESUS TEACHES TRUE VALUES

Golden text: Seek ye first his kingdom, and his righteousness; and all these things shall be added unto you. Matthew 6:33.

Lesson: Luke 12.
Devotional Reading: Psalm 23.

Explanations And Comments

Warnings Against Worry, Luke 12:22-34. Turning to his disciples, Jesus said: "Thee I say unto you." He had just been telling the parable of "The Rich Fool," as we call it, which was about one who laid up treasures for himself, and was not rich toward God, verse 21. He followed this parable with his warning against covetousness, with his "There I say unto you, be not anxious" for this and that, Matthew records in the Sermon on the Mount the words that follow.

Be not anxious for your life, what ye shall eat; nor yet for your body, what ye shall put on. For the life is more than food, and the body than raiment. The argument is that since God has given us the life and the body, these greater things, we may trust him to give also the smaller things, the food to sustain life and the raiment with which to clothe the body.

"Here we have a principle capable of universal application. Live out your manhood; live out your womanhood. Do the things you were made to do. Seek your self-realization on the highest level. You will not give up sewing and raising—your are not meant to be ravens. You will labor six days wisely and usefully, doing close work, sewing, raising, and aspire one day in seven. And when you thus live, intelligently and conscientiously bringing your lives personally and socially into harmony with the purpose of God for them, you may live without fear or worry.

You may live in the assurance that in the great abiding order which enfolds you, too, you will be fed and clothed. You will indeed be fed with that bread which comes down from above, and be clothed with that raiment which is the fine linen of the saints. Seek first the Kingdom of God and all things will be added" (Charles R. Brown).

"Aspirin" Trade Mark Sustained

A warning is found in the judgment just given by the Exchequer Court of Canada at Ottawa, in an action brought by The Bayer Company, Limited, owner of the trade mark "Aspirin". The action asked a judgment of the court restraining the defendant from infringing the trade mark by selling tablets as "Aspirin" which were not the product of The Bayer Company.

The judgment restrains the defendant permanently from putting out of his own tablets as "Aspirin" or under any name so similar to "Aspirin" as to be confusing and awards The Bayer Company damages and costs.

Made Sub-Stratosphere Flight

Moscow Scientists Seek Information
As To Sky's Light

The safe landing of a sub-stratosphere balloon, which carried two Soviet scientists on a flight to determine whether the sky has its own light, independent of the sun, was reported in despatches from the Vladimir district of Moscow province.

The scientists, who claimed to have reached an altitude of 10,000 metres (about 32,808 feet), were I. A. Khvatnikov, of the Soviet Academy of Sciences, and B. I. Romanoff, of the state optical institute. They obtained 15 spectrograms.

The inscription on the American Liberty Bell may also be found in Leviticus 25:10 in the Bible.

The easiest thing in the world for a man to do is to think of the right excuse at the wrong time.

For Telling What the Other Needle Said

If you haven't entered this contest, your chances are still good—272 times as good! What would the other needle say about the threads everybody depends upon for firm, smooth, even strength, no matter how fine in size—Coats' and Clark's 6 cord Spool Cotton? Get an entry blank from your favourite store and write on it what you think the other needle would say. It's easy—but hurry—YOU may WIN!

—The 5 Standards of Excellence—

1. In COATS' and CLARK'S 6 CORD SPOOL COTTON, 6 Cord Cable Construction makes every thread, however fine, firm and dependable.
2. Strength that holds seams secure through years of use in laundering. There is no stretchy coating to give only temporary strength which vanishes in washing.
3. Smoothness to withstand friction of machine and hand sewing.
4. Elasticity to provide seams that will not break or pucker.
5. Evenness which permits easy, rapid movement through the eye of the needle under tension.

New York Enjoyed Exhibits

Canada's Outdoors Taken To National Sportsman's Show

Mid-town New Yorkers, used to the fumes of gasoline exhaust, and traditionally aghast whenever they realize pure air is about, paused reverently amid the fragrant odor of cedar and balsam in the Grand Central zone.

Canada and the great outdoors had come to New York and settled in Grand Central Palace where, at the national sportsman's show, the nostalgic, or merely curious, wandered in replicas of Nova Scotia or Maine forests.

Every day fly casting, log rolling, canoe tilting and other sports of the outdoors vied with taxi dodging, subway swanking and other pastimes of the Gothamite.

A tank occupying 2,800 square feet of floor space accommodated the casters and rollers. Presiding over the sports was Needahab, full-blooded Penobscot Indian from Oldtown, Me.

Canadian provinces had exhibits of animals ranging from three inch chipmunks to 1,800 pound moose.

New Boarder—This is excellent hash. What's your recipe for making it?

Landlady—I have no recipe. It just accumulates.

From two to five million individuals in the United States have organic heart disease.

North America is the only continent with rich coal reserves far inland from the coast.

Amused The Farmers

A story in the London News-Chronicle says in a flight of rhetoric Randolph Churchill referred to a heifer as a "little brother." His audience of farmers in Dingwall market place roared with laughter. It was not until it was explained to Mr. Churchill that a heifer could only be a "little sister" that he appreciated the "joke."

Man has less tendency to grow bald in hot climates.

Science Graduates Lucky

Electrical Engineers Have Less Difficulty In Securing Jobs

Prospects are good that all 176 members of the graduating class in the Faculty of Applied Sciences at the University of Toronto will find positions this spring, Brig-Gen. C. H. Mitchell, dean of the faculty, said.

Employment was found for last year's class of 160 with little difficulty. Electrical engineers are most in demand, followed by mechanical, mining and metallurgical engineers, with chemical engineers last.

"Thick eyebrows may be made thin, but it takes a lot of pluck."

MINARD'S "KING OF PAIN" LINIMENT

FLEMING'S FOLLY

BY LAWRENCE A. KEATING

SYNOPSIS

The story opens with Link Fleming addressing a meeting of Boone County cattlemen, called together with the object of forming an irrigation company.

Roper Kilgo, the boss of the Rawhide and nearby ranges, who seemed to approve the plan, but was really opposed to it, had forced Boak Torney, a derelict mining engineer, whom Kilgo knew would be called upon to give his expert opinion in favor of the scheme, to reverse his earlier endorsement, and declare that irrigation in Boone county so far as Fleming's plan was concerned was only a new-fangled way to waste money.

The meeting terminates, but Buzz Hamilton and his sister, Helen, Link and Kilgo stay behind and Helen asks Fleming questions about his irrigation plan. This angers Buzz, who accuses Fleming of trying to influence his sister and, as he asserts, ruin his "spread." Buzz shoots at Fleming in an uncontrollable fit of anger, but Buster Townsend, Link's foreman, is shot in the stomach, and Fleming is unhurt. Buzz is arrested and sentenced to three years' imprisonment.

Helen and Fleming form a partnership to provide irrigation for their own properties.

Fleming goes home and studies the plans drawn by Torney to learn whether they could be adapted to a smaller scheme suitable for his and Helen's land, and is satisfied it could be done. Feeling cold, he lights the fire and there is an explosion that wrecks the house, burns it and the plans and renders Link unconscious. He is rescued from the blaze by an employee.

Helen and Link ride to Rawhide for supplies and to obtain funds to carry out the dam project. They meet Roper, who greets Helen and Link with her. Link goes to see the Sheriff, who tells him Buzz Hamilton has been paroled, and would arrive on the incoming stage, but that he thinks Link has made a mistake in getting Buzz released.

(Now Go On With The Story)

CHAPTER IX.—Continued

"No, you bet not. Me and Marty Bush swore off a couple of years ago."

Slowly she wheeled her plinto. "I thought perhaps you meant to try to win money to help us out. Because we are still in danger of being un-der to finish the dam, aren't we?"

Link avoided her look as he shrugged his shoulders. "Some. But playing to win means you're sure to lose. No, Helen, I'm stayin' to fix a treat that'll sure tickle you. Nope, can't tell you now. Wait an hour or two. So long!"

Link stood in the thick dust watching her ride away. Then with a look of fondness, the source of which was considerably deeper than casual friendship, he started for the spot where Sheriff Stephen stood waiting.

"Buzz came on the stage while you were in the back," the official notified. "I tried to stall but Jackpot McNeil an' Kilgo came along an' made a fus over Buzz an' insisted he have a drink with 'em. The hull gang is in the Half Moon now."

Furrows grooved Flemings dark forehead as he surveyed the two-story false front of the saloon. "Doggone it!" he exclaimed irritably, "those hordes don't care what they do to a youngster. Of course, Buzz is only two years younger'n me—he's twenty-one. But he seems like a kid, Sheriff, that's got to be watched all its time. This'll be first start for a chap just paroled from prison!"

"Helen's don't know he's here?" Link shook his head. "I sent her on home. Now," he said reluctantly, starting away, "I've got to separate Buzz from them vultures and get him out to the Triple H. Ames, it might be better if you didn't come, on account of Buzz prob'ly saw to see the lawmen at prison he cares to see for quite a spell."

"I'll let 'im alone so long's he don't go have another shootin' match. Tell Buzz I said so." And the bank officer moved off.

Through a friend at the state capitol Link had managed to have Buzz paroled after serving six months of the three years sentence. Fleming had gone to this trouble merely to please Helen, for with a sister's fondness for an errant brother, she was unusually attached to Buzz. So much so, in fact, that she never thought of him as a criminal, but as a youth who had been unfortunate in his choice of companions. It was Helen's ambition, Link knew, to see Buzz make a man of himself so that he could one day yield him the Triple H to manage again, or divide their spread and surrender his share.

Modestly reviewing these facts, he strode inside the Half Moon. As the swinging doors flapped behind him several loafers glanced up with idle interest. Recognizing him, they exchanged significant looks and their eyes strayed to a large wall table

where five men sat playing cards.

With something of a shock he identified the ex-convict for whose actions he was now responsible. Grey prison pallor had dissipated his former healthy tan and Buzz Hamilton's thin face was lined beyond his years. A furtive, hangdog expression persisted on his features and he had lost weight until he was almost scrawny. Loose, ill-made prison clothes hung in wrinkles about his sparsely fleshed body. The newcomer's whole appearance was little less than shocking.

Fleming's eyes caught those of the ex-convict and he forced a welcoming smile as he strode the few paces to the table. "Howdy, Buzz! Glad you're back. Say, you're looking good," he lied glibly. "Helen'll shore be glad—reckon there's nothin' she's wanted more than to have your help on that old Triple H spread!"

The other's gaze fell. "If spoke you are glad to see me. Got things fixed to suit yourself, Fleming, so why shouldn't yuh be?"

Utterly taken back by this reply, Link frowned. "What do you mean, Buzz? Course I'm glad to see you! Best part is," he chuckled, striving to win enthusiasm from those lack-lustre eyes, "Helen don't know a thing about it. She'll be tickled when you ride up! Shall we start now?" he suggested.

(To Be Continued)

Canada And Defence

Dominion Has Made No Commitments, House Of Commons Is Told

Canada has made no commitments whatever with regard to empire defence or any other military activities, Prime Minister Mackenzie King told the ten of commons today in answer to a question from J. S. Woodworth (C.C.F., Winnipeg North Centre).

Mr. King said he received from Hon. Vincent Massey, high commissioner in London, the text of the statement made by the British House of Commons by Rt. Hon. J. H. Thomas, secretary for the colonies. Mr. Thomas dealt with the conference of Dominion premiers in London last May and the position of the Dominions in the league.

Defence matters had been discussed when the premiers were in London for King George's jubilee. With respect to that, former Prime Minister Bennett had said no undertakings had been asked or given. Mr. King said he could say the same thing about communications passed between the governments of Canada and the United Kingdom since the Liberals came into office.

It should be understood, said Mr. King, that Canada as a member of the league took responsibility only for those steps which had been taken by Canada on its own behalf.

Mothers Aided by Guide to Better Control of Colds

Practical Plan Is Helping Families Everywhere to Have Fewer, Milder and Shorter Colds.

SIMPLE AND EASY TO FOLLOW

Already, thousands of Canadian mothers are benefiting by following Vicks Plan for Better Control of Colds—proving for themselves that it is a practical home guide to fewer and shorter colds.

This commonsense, medically sound Plan represents the 30 years' experience of Vicks Chemists in studying colds. It has been tested in extensive clinics by practicing physicians—further proved in everyday home use throughout the country.

Here, briefly, are the three simple steps in Vicks Plan:

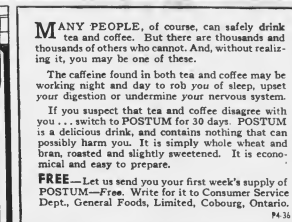

1. To Help Build Resistance to Colds Live normally—avoid excesses. Eat simple food and keep elimination regular. Drink plenty of water. Take some exercise daily. Vapo-doors preferably. Get plenty of rest and sleep.

2. To Help Prevent Many Colds At the first warning of nasal irritation, sniffle or sneeze, use Vicks Va-to-noi—just a few drops up each nostril. Va-to-noi is especially designed for the nose and upper throat—where most colds start. Used in time, Va-to-noi helps to prevent many colds—and to throw off head colds in the early stages.

3. To Help End a Cold Sooner If a cold has developed, or strikes without warning, rub throat and chest at bedtime with Vicks Vapo-Rub. Vapo-Rub acts two ways at once: (1) By stimulation through the skin, like a poultice or plaster; (2) By inhalation of its penetrating medicated vapors, direct to the nasal passages.

Through the night, this combined vapo-poultice action loosens phlegm, soothes irritation, helps break congestion. What Vicks Plan can do for you and your family can be proved only by trying it. Directions for following the Plan come in each package of Vicks Va-to-noi and Vicks Vapo-Rub.

Mr. CAFFEINE-NERVES... he gets expelled from school

Little Helps For This Week

Whatever a man soweth that shall he also reap. Galatians 6:7.

Sow love and taste its fruitage
Sow peace and reap its harvest
Sow righteousness on the rock and moor,
And reap a harvest home of light.

The life above is the ripe fruit of the life below. The inclinations of the soul which shall issue hereafter in perfection must be trained in us throughout the whole course of this earthly life. The future perfection of the saints is not a transi-tion from one state or disposition of the soul into another, but the carrying out as it were the blossom and fruitage of the one and same principle of spiritual life which through their career on earth has been growing into a promise of perfection, reaching upward after perfect holiness.

Trans-Atlantic Air Service

Semi-Weekly Flights Between Britain And America To Start This Summer

Eugene L. Vidal, United States director of air commerce, told an American Legion meeting semi-weekly trans-Atlantic flights between Great Britain and North America will start this summer on regular schedule.

Imperial Airways and Pan-American Airways each will send two planes a week across the Atlantic, Vidal said. Passenger service, however, will not be inaugurated for "some time."

The planes will use the Newfoundland and Ireland route in summer and the Azores and Bermuda route in winter.

France plans eventually to make the Atlantic flight in a single jump, Vidal said, while German aeroplanes will use catapult ships in the vicinity of the Azores.

Thousands Of Mail Contracts Postmaster-General Elliott told the House of Commons 12,952 contracts for transportation of mail are in operation in Canada at present. The number in provinces included: Saskatchewan, 1,433; Alberta, 1,104; British Columbia, 802; Yukon, 14.

The Croydon, Surrey, Eng., library collects an average of \$500 monthly in fines imposed for keeping books over time.

Home Of The Future

University Professor Sees It As Vacuum Bottle Type

A house built on the vacuum bottle principle may be the forerunner, a Northeastern University professor said, of the air conditioned home of the future.

Its walls are 14 inches thick, its windows never open and its heating system functions without registers or radiators.

Frederick Stearns, assistant professor of mechanical engineering at Boston University, has had it under observation for a year. During that time, he said, because of the automatic air conditioning system built into the dwelling, inside temperature and humidity have remained practically constant regardless of outside conditions.

In the heyday of the Volga river in Russia, 25,000 barges plied the river.

Gold was found in a meteorite which fell in New Mexico several years ago.

Pensions Court Hears Appeals

Many Cases Awaited Consideration At End Of 1935

A total of 789 appeals awaited consideration by the pensions appeal court at the end of 1935, according to information tabled the House of Commons by Hon. C. C. Power, minister of pensions and national health. Of this number, 27 were appeals of the crown from the pensions commission, 651 were appeals of applicants from the same body, and 111 were in "other categories." The return showed 36 appeals were allowed by the court in 1935, while 1,603 were disallowed.

Chief Slept Through Fire

"Deep in the Sleep" might well be the title of this little story. John Anderson, celebrated his election as chief of the volunteer fire brigade at Anchorage, Alaska, by sleeping through the first fire. The station siren aroused the whole town but not the chief, just a block away. His wife, a night telephone operator on duty, couldn't raise him either.

Local News

To-night at the Palace, Zane Grey's "Nevada" will be one of the double feature program; the second being "The Virginia Judge."

John Korman has made an early start on spring work adding to the appearance of his home on Sixth street by erecting a neat fence.

By recent amendment to the School Act, the term "elector" shall not include anyone who is not a British subject in districts that have been established ten years.

VICTORIA REBEKAH LODGE No. 7 will hold a bridge party on Tuesday, March 24, at 8 p.m. Admission 35c. Every bridge player is invited to come to the I. O. O. F. hall, and spend a pleasant evening.

Herb Sherratt's chest will swell with pride when he drives the new Hudson-Terraplane truck which has been ordered through Sentinel Motors by the store of Ed. Ledieu. More and quicker deliveries in their sim.

J. L. Miller arrived to-day, and will commence business on April 1 in the Biela building, Main street, next to Coleman Co-Operative. He will operate a garage and repair shop. It is eleven years since he worked here with Sentinel Motors.

The Motordrome received a call on Wednesday morning to extricate a car which had wandered from the straight and narrow path into Nez Perce Creek, in the vicinity of the hospital. No casualties reported, and the car was able to proceed under its own power after being hauled out.

Due to the Alberta government taking over the distribution of beer on April 1, the warehouses owned by Distributors Ltd. in Coleman is offered for sale. The government will store all beer for Pass consumption in the building formerly occupied by F. M. Thompson Hardware.

The Journal was in error last week when it was stated Mrs. John Jackson represented the Victoria Rebekah lodge at the annual convention at Calgary, she represented Bellevue. Mrs. Russell Vincent was the official delegate from Coleman and was accompanied to the convention by Mrs. Walter Nelson.

Kimberley Dynamiters were too good for Prince Albert Minto at Nelson on Wednesday evening, snowing them under by a 6-3 score. Kimberley were masters of the situations during the entire game and Coleman fans could easily visualize the speedy rushes of the Dynamiters as they sped goalwards, especially Harry Brown's daring rushes as he scored on the Minto in identically the same way that he scored on the Canadians here in an exhibition game.

Result-getting advertising is a steady pull—not an occasional jerk.

Elks Lodge Stage Successful Dance

When the Elks put on a dance, they enter into it with vim and enthusiasm, and the St. Patrick's night dance added another popular event to their credit. The committee worked together to make it a success, and all who attended spent a most enjoyable evening. At 11 o'clock the customary ceremonial was read by Bro. George A. Brown, when all lights were dimmed with the exception of the lighted clock with hands pointed dead on 11 p.m.

The hall was beautifully decorated with streamers, shamrock designs and lodge emblems, giving a very attractive appearance, for which the members deserve credit for painstaking work. John Rush-ton designed the decorative scheme.

See Charlie Chan "In Egypt" next Tuesday and Wednesday at the Palace theatre. Also "My Marriage" as the second of a double feature program.

"Shipmates Forever" starring Dick Powell and Ruby Keeler is the feature at the Palace theatre for Saturday and Monday. Produced by Warner Bros. and with a whole regiment of stars.

There are some who do a lot of using attention-compelling advertising around and accomplish very little. Better to cultivate a small patch of ground well than merely scratch the surface of a much larger area. Your net results will be more profitable. Cultivate the goodwill of Coleman buyers by the product that is advertised in The Journal is worthy of your confidence.
